

U.S.S.N. 10/050,375

Remarks

Claim 1 has been amended. Claim 1 has been amended to correct an inadvertent clerical error and not for reasons related to patentability. Support for the amendment to claim 1 can be found in general throughout Applicants' Specification and in particular, for example, at page 5, lines 11-14. Applicants thank the Examiner for his helpful suggestion regarding the Amendment and for kindly indicating that claims 1-41 are allowable.

Applicants further wish to point out that although claim 38 was previously amended in the Amendment dated February 26, 2004, the Listing of Claims attached thereto did not reflect the amendment to claim 38. The claim set included herein reflects the fact that claim 38 was previously amended, i.e., claim 38 is marked with the status identifier "Previously Amended," and includes the added language, "said composition having a viscosity of no greater than 100,000 centipoise at 300°F."

The claims now pending in the application being in a condition for allowance, such action is respectfully requested.

The Commissioner is hereby authorized to charge any additional fees that may be required and to credit any overpayment to Deposit Account No. 06-2241.

Respectfully submitted,

Date: June 10, 2004
